Prof. Siddhartha Agarwal  
Mining Department

This is to acknowledge that Gowtham Raju has successfully completed a 2-month internship at the Mine Digitalization Lab, IIT (ISM) Dhanbad, under the guidance of Dr. Siddhartha Agarwal. During his internship, he worked on the project titled: Quantum-Enhanced Clustering of LA-ICP-MS Geochemical Data Using QCNN. His commitment to understanding complex concepts, meticulous approach to data analysis, and ability to apply quantum-enhanced clustering techniques significantly contributed to the progress of the project. We highly appreciate his consistent efforts, innovative mindset, and professional attitude throughout the internship period. We are confident that his skills, perseverance, and enthusiasm will continue to bring him success in all his future academic and professional endeavors. We extend our best wishes to him for a bright and prosperous future.
